Summary

Communications and Electronics Engineering graduate, highly motivated to launch a career in the technology sector. Eager to contribute and expand my expertise in software development, networking, or related technical fields.

Professional Experience

Technical Support Engineer, Swess Home
03/2026 – Present | Damascus, Syria
Provided technical support and operational troubleshooting for users and real-estate offices, acting as a bridge to connect them, while resolving staff issues on the CRM system, proposing strategies to develop company applications, the CRM, and workflow mechanisms, alongside managing customer service and social media accounts.

Operations Specialist, Safarny Group
05/2024 – 07/2025 | Damascus, Syria
Managed passport reservation operations for citizens both in-country and overseas via official government platforms using modern technological tools to streamline the booking process, while ensuring high-accuracy data entry. Additionally, managed social media pages and provided dedicated customer support regarding platform usage, booking mechanisms, and required documentation.

Graphic Designer, Freelancer
05/2023 – 04/2024 | Damascus, Syria
Designed social media posts, logos, business cards, visual identities, and posters.

Graphic Designer, Sunrise Scc
02/2022 – 05/2023 | Damascus, Syria
Designed creative posts for the center's social media platforms and efficiently managed its pages.

Cashier, Al-Sehi Restaurant
12/2019 – 02/2021 | Damascus, Syria
Managed the restaurant's financial affairs, engaged effectively with customers, and ensured all their requirements were met.

Education

Bachelor's degree in Communications and Electronics Engineering., Damascus University, Faculty of Mechanical and Electrical Engineering, Department of Communications and Electronics Engineering
11/2018 – 07/2025 | Damascus, Syria

Programming Skills

Web Development (MERN Stack): React, Node.js, Express.js, MongoDB, RESTful APIs

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
